

Of 106 Infection Prevention Specialists Surveyed:*

But only

5%

correctly recalled the number
of steps, per HLAC, to process
a load from dirty to clean

>100

Number of steps, according
to HLAC, to process laundry
from dirty to clean.

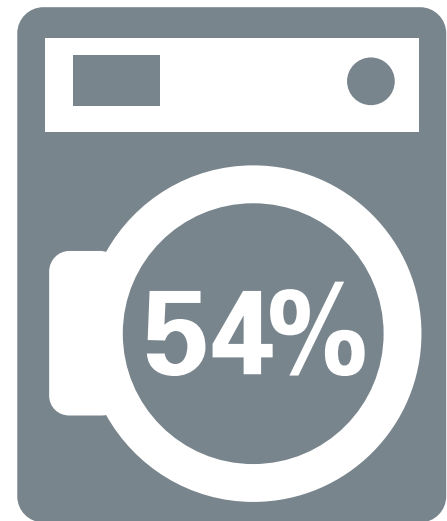

Fewer Than
1-in-5

I/Ps trust their facility's
laundrying system
"Completely"

17%

Percentage of I/Ps who would "Definitely"
drink a glass they had just wiped with a
recently laundered mopping pad

Percentage of I/Ps who have
NEVER observed a visual audit
of their facility's laundry process
by senior leadership.

"Clean laundry sometimes comes back with stains. Sometimes it comes back damaged, torn or tattered. Sometimes we don't get all of it back and are charged for "missing or lost pieces."**
